codx-junior - slides to pdf pipeline

Conversion test / slide 01

render test

One file. Zero deps. Pixel-exact PDF.

Rich CSS, inline SVG charts and custom fonts are printed by a headless Chromium: vectors stay vectors, gradients stay gradients.

```
doc_converter(target_format="pdf", slides=True)
```

Canvas	Engine	Assets
1920 x 1080	Headless Chromium	0 external

Deck render time

Milliseconds per slide, by build size (`render_ms`).

Deck size (slides)	2	4	6	8	10	12	14	16
render_ms	196	174	180	148	156	120	130	58

Lowest recorded value: **58 ms** at 16 slides.

Key figures

3.4x	0	1
Faster than pandoc	CDN requests	HTML file
